

Pentagram of Fire Spread

This spread is intended for situations where enterprise and initiative are uppermost in the querent's mind. Such would be anything to do with creating something: a new business, a new job, a new project, a new lifestyle, etc. The series of cards follows the sequence of the Invoking Pentagram of Fire and is designed to query the spirit of industry. First, select a Significator that best represents the nature of the circumstances at hand. For example, questions regarding the launching of a business might be represented by the 3 of Wands, while the impetus to restructure an existing one to improve efficiency suggests the 10 of Wands. Card # 1 indicates the querent's desire; Card #2 the first steps in pursuing that desire; Card #3 the insights obtained during the preparatory phase; Card #4 the emotional adjustments such a pursuit might entail; and Card #5 the likelihood of “buying into” a contract or agreement. Link Card #5 back to Card #1 to express how that commitment can be leveraged in support of the goal. At all points, assess the compatibility of the elemental cards with the Significator to reveal the degree of cooperation or obstruction of each factor in meeting the objective.
